Jim Hannah Homestead

Ola Missionary Baptist Church

Palmer Methodist Church and Cemetery

Steve Woody Homestead

W.G.B. Messer at Ola

Will Messer 'Upper Place' Homesite

Newfound Gap Road

New Found Gap Road Overlook

Notes: This hierarchy is subject to change and additions with future research. Forty two cultural landscapes and component landscapes are listed in the CLI for GRSM. Voorheis Estate is the only one of these with certified data. Additionally, SERO staff has initiated site visits and research for: Cades Cove and its twelve component landscapes, and Cataloochee and its fourteen component landscapes. In FY 2005, GRSM contracted with TRC Inc. for an EA and CLIs for Cherokee Orchard Road, Roaring Fork Motor Nature Trail and their four component landscapes.

\* Former GRSM landscape architect, Jerry McGee, conducted CLI research at Elkmont in 2001-2002. Between the Wonderland Club, the Appalachian Club and their associated cabins and cemeteries, over 60 potential component landscapes were identified at Elkmont. They are not yet listed in the CLI.

\*\* Voorheis Estate, listed in fair condition, is the only certified record in the park.

\*\*\* Cades Cove Landscape and its 12 component landscapes have condition data, but the records are not certified. They are scheduled for certification in FY 2008.
